

Meadow Sweet

Herbs & Flowers

Seeds for Sale Stock List Spring 2019

Most of these seeds were hand harvested and saved from **home-grown** and spray-free plants in my Auckland garden; some were saved from friends' gardens. Limited numbers in some varieties, others I have lots of.

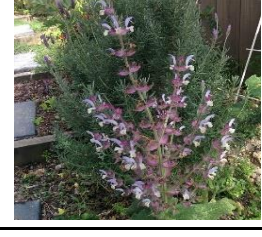

Most seeds are from 2018/2019 season with a few from the previous 2017/2018 season.

Every care has been taken in collecting and storing the seeds. Germination rates should be excellent and type preservation accurate, but with home seed saving and germination, no guarantees can be made as many factors influence the sprouting of the seeds, such as temperature, soil medium, and watering etc.

All these are also available as **seedlings or plants from my home nursery**, please enquire about availability. The nursery will stock a larger range of plants through the season as well, including heirloom tomatoes, chillies, cottage garden flowers, companion plants and herbs. Christchurch only.

Seeds per packet : min 10; max 100 (depending on the variety). **Each seed packet is \$2.50.** Every order of 5 packets receive one packet of a random variety free.

Photo	Classification	Common Name	Latin Name
	Vegetable - Cucumber & Melons	Caigua	Cyclanthera pedata
	Vegetable - Brassica	Mizuna Red Coral	Brassica sp
	Vegetable - Beans	Green, Purple, Yellow Mix Dwarf Beans	Phaseolus sp

	Vegetable - Artichoke & Cardoon	Cardoon, Cardoon	<i>Cynara cardunculus</i>
